

OWN THE BOARD. BUILD THE EMPIRE.

BOARDROOM BILLIONAIRES

INTRODUCTION

The **Innovation and Entrepreneurship (I&E) Cell of Atharva College of Engineering**, in association with the **Institution's Innovation Council (IIC)**, is dedicated to fostering innovation, leadership, and entrepreneurial excellence among students. As part of this vision, the I&E Cell proudly presents **Boardroom Billionaires 2026**.

Designed to mirror the dynamic realities of the entrepreneurial ecosystem, **Boardroom Billionaires 2026** offers an immersive business simulation where participants build, and scale their ventures through strategic resource allocation, executive decision-making, investment negotiations, and market-driven challenges. The competition evaluates participants on their entrepreneurial vision, leadership, financial and strategic acumen, innovation, adaptability, and their ability to create sustainable, investment-ready enterprises in a competitive business environment.

KEY ELEMENTS IN BOARDROOM BILLIONAIRES 2026

Round 1: The Auction Floor

The Concept: A live **bidding war**. Teams use limited virtual capital to buy the core assets needed to run their startup.

Examples: Bidding on a Lead Blockchain Developer, AWS Server Credits, or a specialized FDA Approval Consultant.

Round 2: Market Mayhem

The Concept: A free-roaming networking round. Teams open a “**Hidden Task**” envelope and must negotiate with other startups on the floor to complete it and boost their valuation.

Examples: Negotiating a B2B integration between an E-commerce and Fintech startup, or getting three other teams to sign a “Customer Validation” sheet for your new app.

Round 3: Fortune & Fallout

The Concept: Unpredictable market events meet crisis management. Teams pull luck-based cards that alter their finances, then must present a quick strategy to survive a sudden industry crisis.

Examples: Surviving a sudden government crackdown on crypto (Fintech), or drawing a “Tech Boom” card that adds \$50k to your valuation.

Finale: The Revival Blueprint

The Concept: The top startups enter the boardroom. They are assigned a famously failed or struggling product and must pitch a complete rebranding and revival campaign to the judges.

Examples: Repositioning the failed Google Glass as a B2B surgical tool, or rebranding the Tata Nano into a trendy, eco-friendly EV for Gen Z.

THE FOUR SECTORS OF THE EVENT

1. FINTECH SECTOR

- Integrates technology into financial services, including digital payments, mobile banking, and automated investments.
- Drives financial inclusion, transaction efficiency, risk management, and decentralized finance solutions for consumers and enterprises.
- Enables seamless cross-border transactions and real-time fraud detection

2. HEALTHTECH SECTOR

- Combines software, medical hardware, telecommunications, and AI to improve healthcare delivery and patient outcomes.
- Focuses on digital diagnostics, telemedicine, medical devices, health data management, and personalized medicine.
- Enhances patient accessibility while streamlining clinical operations and health data security.

3. E-COMMERCE SECTOR

- Facilitates online buying and selling of goods, services, and digital products through digital storefronts.
- Manages supply chain logistics, inventory infrastructure, digital marketplaces, and consumer retail experience.
- Leverages predictive analytics to personalize consumer shopping experiences and optimize delivery networks.

4. HOSPITALITY SECTOR

- Oversees service-driven operations across travel, lodging, event planning, and customer experience systems.
- Focuses on guest satisfaction, property management systems, travel logistics, and operational service standards.
- Integrates smart automation to enhance customer touchpoints and streamline backend operations.

PRIZE POOL

₹ 10,000
